Smart Attend — Overview

QR-and-GPS verified attendance for modern classrooms.

The Problem

- Paper sign-in sheets get lost, forged, or filled in by a friend.
- Lecturers waste five to ten minutes per class calling names.
- No reliable record for exams, funding, or accreditation.
- Students who skip class leave no trace.

The Solution

- Lecturers display a rotating QR code. It refreshes every twenty seconds.
- Students scan with their phones. No app installation needed.
- GPS verifies the student is physically inside the classroom radius.
- Attendance is captured instantly, timestamped, and location-verified.

Key Features

- **60-second onboarding** per student.
- **Anti-proxy protection** with server-side distance verification.
- **Live attendance views** that update every five seconds.
- **Automatic email warnings** for at-risk students.
- **PDF exports** with institution letterhead, signatures, and stamp area.
- **Fully brandable** with a custom logo, colours, favicon, and footer.
- **One-click backups** with restore.
- **Dark mode** and responsive design.

Roles and Capabilities

Student

- View enrolled courses and current attendance percentage.

- Scan QR to mark attendance.
- Download a personal attendance record as a PDF.
- Update profile photo.

Lecturer

- Start sessions in one click with GPS-captured anchor.
- Display a live rotating QR code.
- View live attendance in real time.
- Manage own course enrollment.
- Download register PDFs.

Administrator

- Manage users, courses, and enrollments.
- Bulk-enroll students via CSV upload.
- Filter and export reports.
- Notify at-risk students by email.
- Brand the system.
- Back up and restore the database.

Technical Requirements

Item	Requirement
Hosting	Any PHP + MySQL host. XAMPP, shared hosting, or a VPS.
HTTPS	Required for phone camera and GPS access.
Browser	Chrome, Edge, Firefox, or Safari, updated within the last two years.
Devices	Any smartphone with a camera and GPS.
Cost	Free to host on standard infrastructure.

What It Replaces

- Paper sign-in sheets.
- Manual name-calling.

- Spreadsheet-based attendance tracking.
- Handwritten records that get lost or disputed.

What It Enables

- Instant, tamper-resistant attendance records.
- Live visibility into who is in class.
- Automated warnings for students who fall behind.
- Official PDF reports for accreditation and audits.
- Reliable data for academic decisions.

Get Started

- Visit the institution URL.
- Log in with your existing credentials.
- Or ask an administrator to create an account for you.

See the User Manual for detailed instructions.
